

Funding Options

Funding may be available for native planting projects.

Assistance With Planting

For bulk purchases, we can connect you with contractors who provide collection & delivery services or can help you prepare and plant your site.

**KAIMANAWA NATIVE
PLANT NURSERY**

**SPECIALISTS IN QUALITY
NATIVE PLANTS**

Who We Are

Kaimanawa Native Plant Nursery is a specialist owned boutique native plant nursery with a focus on supplying quality native plants that are durable in a wide range of environments.

Owned by a Taupo based Māori Land Trust the nursery supports the local community through creating employment and providing learning opportunities for those interested in environmental management and related sectors such as apiculture, agriculture & horticulture.

What We Do

Kaimanawa Native Plant Nursery produces a variety of hardy native plants but specialises in the eco-sourcing, germination and propagation of Mānuka native plants.

Mānuka is a key species for environmental rehabilitation & riparian planting and can also integrate with forestry for carbon sequestration, essential oil & honey production.

Our Story

Kaimanawa Native Plant Nursery is located on the Napier Taupo Highway. Due to our unique location the plants grow in challenging weather conditions making them sturdy and climate friendly for many land owners located in the Central North Island. We supply to entities who are interested in:

- Utilizing marginal land
- Increasing the value of their land

Plant Supply

- Native plants are available for ordering and purchases
- Discounts will be given for early con-firmed orders
- We can support bulk orders
- You can view and personally select your plants onsite

Please ring the number provided for onsite viewing.
